**IF THE FORCES OF EVIL SHOULD RISE AGAIN TO CAST A SHADOW ON THE  
HEART OF THE CITY, CALL ME"**

- Letter from Batman™ to the citizens of GOTHAM CITY™, Batman™ (1989).

**« SI LES FORCES DU MAL DEVAIENT SE RELEVER ET JETER UNE OMBRE SUR  
LE CŒUR DE LA VILLE, APPELEZ-MOI. »**

- Lettre de Batman™ aux citoyens de GOTHAM CITY™, Batman™ (1989).

**"SI LAS FUERZAS DEL MAL LLEGAN DE NUEVO SALIENDO DE LAS SOMBRAS  
DEL CORAZÓN DE LA CIUDAD, LLÁMENME".**

- Carta de Batman™ a los ciudadanos de GOTHAM CITY™, Batman™ (1989)

La  
**BATWING**  
de 1989

**BATIPLANO**  
de 1989

### THE INSPIRATION

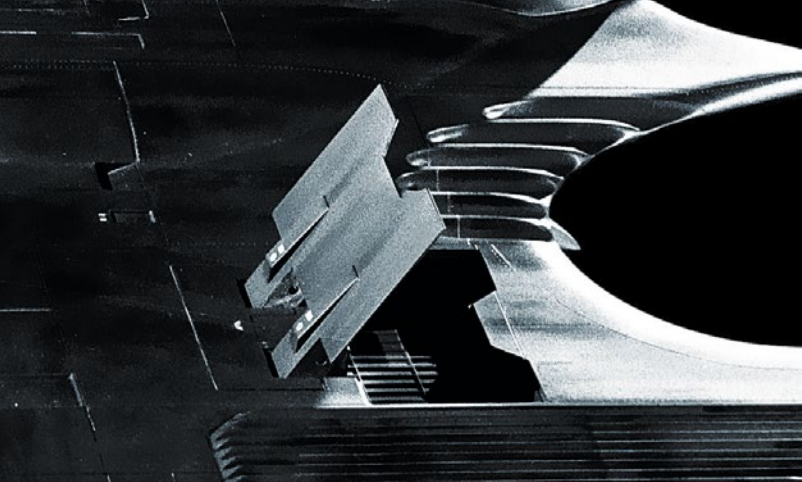

The Batwing™ is the epitome of the Caped Crusader™. For one thing, a bat has to fly, of course. But more than that, its silhouette against the full moon in *Batman™* (1989) emulates the Bat-Signal™ – the iconic beacon of hope that summons Batman in the darkest hours of GOTHAM CITY™.

### L'INSPIRATION

Le Batwing™ est la quintessence du justicier masqué. D'une part, une chauve-souris doit voler, bien entendu. Mais plus encore, sa silhouette devant la pleine lune dans *Batman™* (1989) imite le Bat-Signal™ – l'emblématique phare de l'espoir qui appelle Batman dans les heures les plus sombres de GOTHAM CITY™.

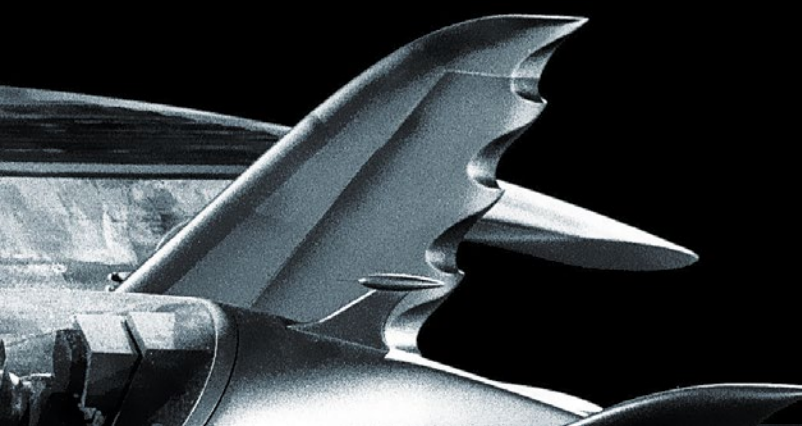

### LA INSPIRACIÓN

El Batiplano representa a la perfección la esencia del Cruzado de la Capa. Para empezar, un murciélago tiene que poder volar, por supuesto. Pero, más allá de eso, su silueta contrastada ante la luna llena en la película *Batman™* (1989) emula la batiseñal: el inconfundible rayo de esperanza que avisa a Batman cuando GOTHAM CITY™ se sumerge en sus horas más oscuras.

## THE DESIGN PROCESS

Eager to capture the mood, brood and spirit of the movie, our designers went all out to recreate the distinctive features of the Batwing™.

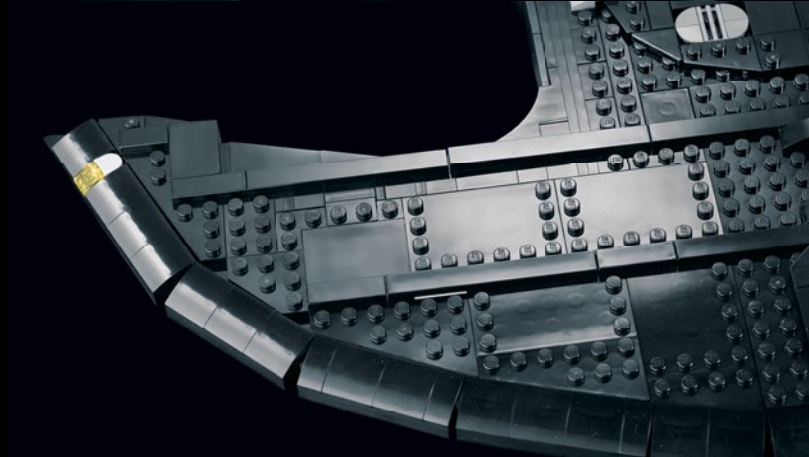

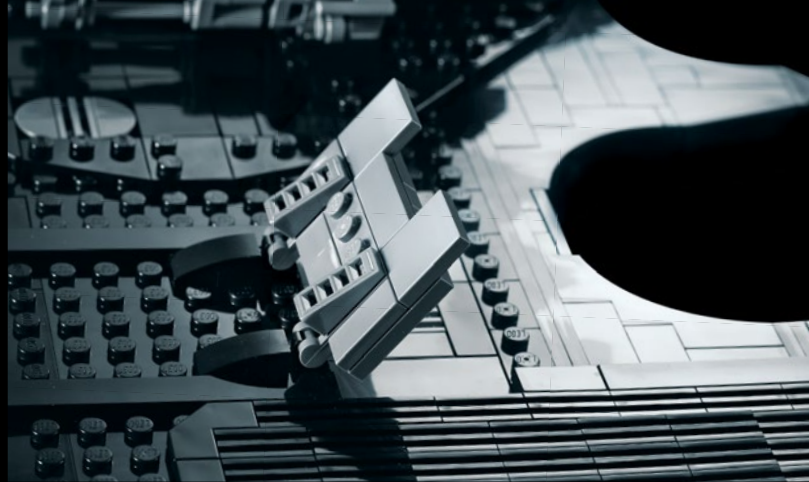

## LE PROCESSUS DE CONCEPTION

Désireux de saisir l'ambiance, la noirceur et l'esprit du film, nos concepteurs se sont donnés corps et âme pour recréer les caractéristiques distinctives du Batwing™.

## EL PROCESO DE DISEÑO

Nuestros diseñadores, ansiosos por captar la atmósfera, la melancolía y el espíritu de la película, se esforzaron al máximo para recrear los rasgos distintivos del Batiplano.

### **ADAM GRABOWSKI, SENIOR MODEL DESIGNER**

"The Batwing™ movie model actually isn't very detailed, but its shape is what gives it life, so it was important to get that right. I tackled it as one unit instead of one feature at a time. It's only shown very briefly in the movie, and most details can be seen inside the cockpit. But we had blueprints that, knowing the dimensions, we blew up to scale with the 1989 Batmobile™ 76139. Then we mapped out the cockpit window and went from there. We opted for a built solution rather than a one-piece window because in our opinion it worked almost at once."

---

### **ADAM GRABOWSKI, CONCEPTEUR PRINCIPAL DE MODÈLES**

« Le modèle du Batwing™ du film n'est pas vraiment détaillé, mais c'est sa forme qui lui donne vie. Il était donc important de bien la rendre. Je l'ai approché comme un tout au lieu de me concentrer sur une caractéristique à la fois. On ne l'aperçoit que très brièvement dans le film, et on peut voir la plupart des détails à l'intérieur du poste de pilotage. Mais nous avons des plans que nous avons convertis à l'échelle de la Batmobile™ 1989 (76139). Puis nous avons schématisé la fenêtre du poste de pilotage comme point de départ. Nous avons opté pour une solution construite plutôt qu'une fenêtre d'une seule pièce, puisque cela nous semblait fonctionner presque immédiatement. »

---

### **ADAM GRABOWSKI, DISEÑADOR SÉNIOR DE MODELOS**

"El modelo del Batiplano que aparece en la película no es especialmente detallado; lo que en realidad le da vida es su forma, así que era fundamental reproducirla con precisión. En lugar de ir elemento por elemento, resolví el diseño enfocándolo como una unidad. Sale muy brevemente en contadas escenas, y la mayoría de los detalles que se aprecian están adentro de la cabina. Pero contábamos con planos, conocíamos las dimensiones y, por tanto, pudimos reducirlo a la escala del modelo 1989 Batmobile™ (76139). Luego nos centramos en la cubierta transparente de la cabina y seguimos a partir de ahí. Nos decidimos por una solución construible en lugar de optar por una cubierta de una pieza porque, en nuestra opinión, en cuanto nos pusimos a probar, funcionó casi a la primera".

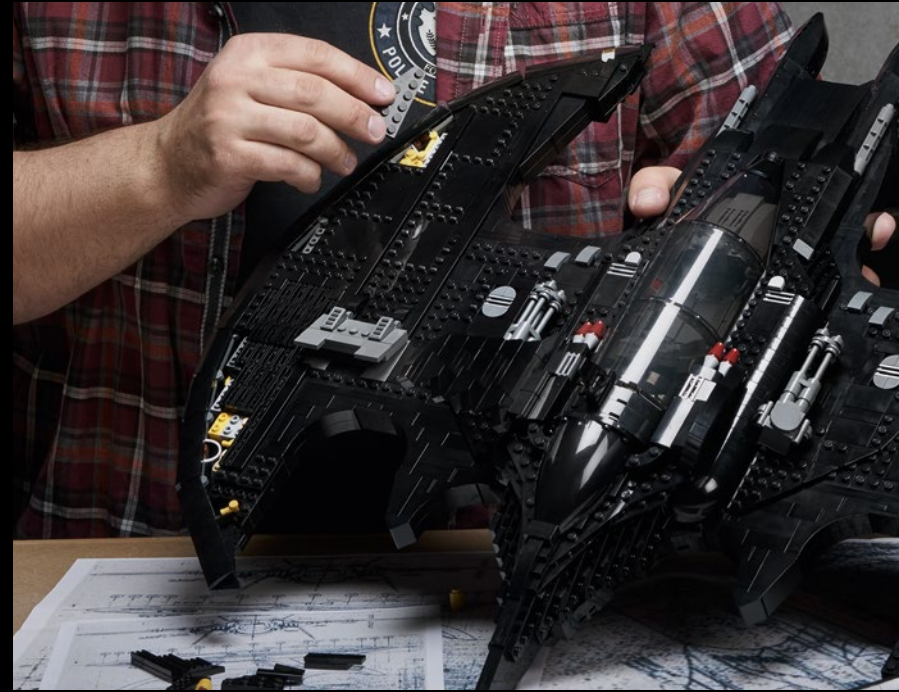

## INTERPRETING THE CONSTRUCTION

"We took a few creative liberties inside the cockpit. It's not an angle you really get to see, and we had to create an artificial shadow so that the footwell looks deeper than it actually is. The edges of the wings (in bags 5 and 6) are quite unusual and a fun challenge to build! They wrap around the outer curve of the wing, which isn't a perfect half circle. I created the outline with techniques that allowed me to flip bricks in a way so I could always use the best brick for the shape I needed. It's a crazy puzzle but it works!"

## INTERPRÉTATION DE LA CONSTRUCTION

« Nous avons pris quelques libertés créatives pour l'intérieur du poste de pilotage. Ce n'est pas un angle qu'il vous est vraiment donné de voir, et nous avons dû créer une ombre artificielle de sorte que le plancher semble plus profond qu'il ne l'est réellement. Les bordures des ailes (dans les sacs 5 et 6) sont assez inhabituelles et représentent un défi amusant à construire ! Elles suivent la courbe extérieure de l'aile, qui n'est pas un demi-cercle parfait. J'ai créé le contour avec des techniques qui m'ont permis de retourner les briques d'une manière telle que je puisse toujours utiliser la meilleure brique pour la forme dont j'avais besoin. C'est tout un casse-tête, mais ça marche ! »

## INTERPRETACIÓN DE LA CONSTRUCCIÓN

"Nos tomamos algunas libertades creativas en el interior de la cabina. En realidad, ningún encuadre nos lo enseña por completo. Tuvimos que crear una sombra artificial para que el espacio para las piernas diera una sensación de profundidad que ciertamente no tiene. Los bordes de las alas (en las bolsas 5 y 6) son muy inusuales, ¡y representan un divertido desafío de construcción! Recubren la curva exterior del ala, que no es un semicírculo perfecto. Creé el contorno con técnicas que me permitieron voltear bricks de tal manera que pudiera usar siempre el mejor brick para la forma que necesitaba. Es un rompecabezas descabellado, ¡pero funciona!".

## IOANA POPESCU, GRAPHIC DESIGNER

"I loved creating the minifigures and stickers for this set. Especially the Boombox Goon™. He's such a fun character and nicely detailed. This was my fourth The Joker™ minifigure and the most unique so far. Graphic design brings the story into the model. Look for Easter eggs like the screen with the iconic Smylex gas balloon and the sticker that labels the engine as a 'Bat engine' (Adam's idea!). Working with Adam is always a smooth process, except for a mistake I made on a sticker which I had to correct quite late in the process (oops)!"

## IOANA POPESCU, GRAPHISTE

« J'ai adoré créer les figurines et les autocollants pour cet ensemble. Surtout l'homme de main tenant une radiocassette. C'est un personnage amusant et bien détaillé. C'était ma quatrième figurine Le Joker™ et la plus unique à ce jour. La conception graphique infuse l'histoire dans le modèle. Cherchez les œufs de Pâques, comme l'écran avec l'emblématique ballon de gaz Hilarex et l'autocollant sur le moteur qui le qualifie de "Bat-moteur" (une idée d'Adam !). Travailler avec Adam se passe toujours sans accrocs, sauf pour une erreur que j'ai commise sur un autocollant et que j'ai dû corriger assez tard durant le processus (oops) ! »

## IOANA POPESCU, DISEÑADORA GRÁFICA

"Me encantó crear las minifiguras y las calcomanías para este set. Especialmente el matón de la grabadora. Es un personaje divertidísimo y lleno de detalles. Respecto a The Joker™, es la cuarta minifigura que hago de este villano y la más especial hasta ahora. El diseño gráfico envuelve al modelo en la historia. Busca sorpresas como la pantalla que muestra el famoso globo con gas de Sonríex y la calcomanía con el rótulo 'Bat engine' pegada en el motor (¡fue idea de Adam!). El trabajo con Adam siempre es muy dinámico, sin contratiempos, ¡excepto por un error que cometí en una calcomanía y que tuve que corregir bastante avanzado el proceso (vaya...)!".

"I'M BATMAN."

« JE SUIS BATMAN. »

"SOY BATMAN".

### THE BATWING™ MOVIE MODEL

A life-size model of the Batwing™ was built for the close-up flying scenes when Batman™ takes on The Joker™ at the 200th anniversary celebration of GOTHAM CITY™. He grabs the toxic Smylex-filled parade balloons from The Joker's float and flies off, releasing them into the night sky. Guns blazing, he zooms back towards the grinning maniac on the ground in a theatrical showdown that ends in a dramatic crash.

### LE MODÈLE BATWING™ DU FILM

Un modèle grandeur nature du Batwing™ a été construit pour les scènes de vol en gros plan, lorsque Batman™ affronte le Joker™ à la cérémonie du 200<sup>e</sup> anniversaire de GOTHAM CITY™. Il arrache les ballons de défilé remplis d'Hilarex toxique du char allégorique du Joker et s'envole, les relâchant dans le ciel nocturne. Il plonge ensuite vers le désaxé souriant et déclenche une pluie de balles, ce qui donne lieu à un affrontement théâtral qui prend une tournure dramatique.

### EL MODELO DEL BATIPLANO EN LA PELÍCULA

Se construyó un modelo del Batiplano a tamaño real para las escenas de vuelo en las que Batman™ enfrenta a The Joker™ durante el desfile de la celebración del 200 aniversario de GOTHAM CITY™. El superhéroe engancha los globos llenos de gas tóxico de Sonríex sujetos al carro alegórico de The Joker, se aleja volando y los suelta en el cielo nocturno. De inmediato y con sus armas listas para disparar, regresa a toda velocidad hacia el sonriente lunático, que le espera desafiante sobre el asfalto, y protagonizan un teatral duelo que termina en una espectacular colisión.

## **READY FOR TAKEOFF**

The movie version of this Batwing™ may have crashed on the steps of the GOTHAM CITY™ Cathedral, but this one you can build, rebuild and display wherever you like. Follow the instructions, get ready to save GOTHAM CITY from the world's first fully functioning homicidal artist, and give the world a rest from crime.

---

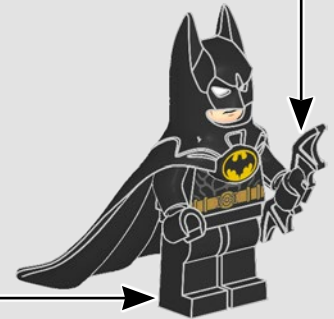

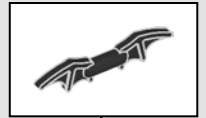

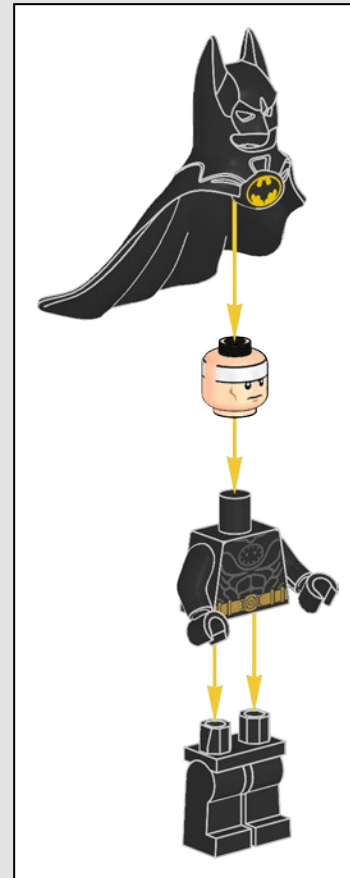

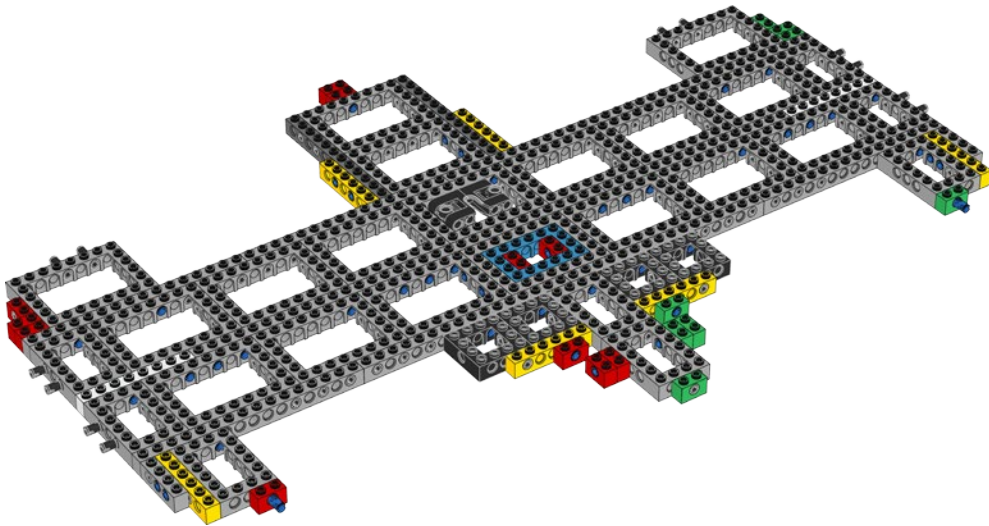

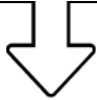

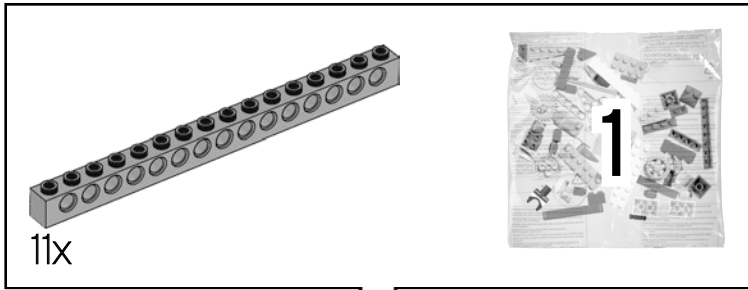

## **PRÊT POUR LE DÉCOLLAGE**

La version cinématographique du Batwing™ s'est peut-être écrasée sur les marches de la cathédrale de GOTHAM CITY™, mais celle-ci peut être construite, reconstruite et exposée. Suivez les instructions, préparez-vous à sauver GOTHAM CITY du premier artiste meurtrier autonome au monde, et faites la guerre à la criminalité.

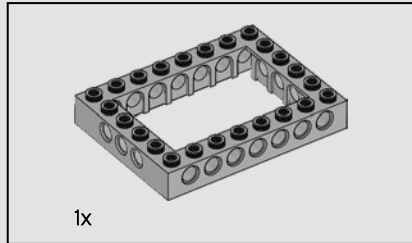

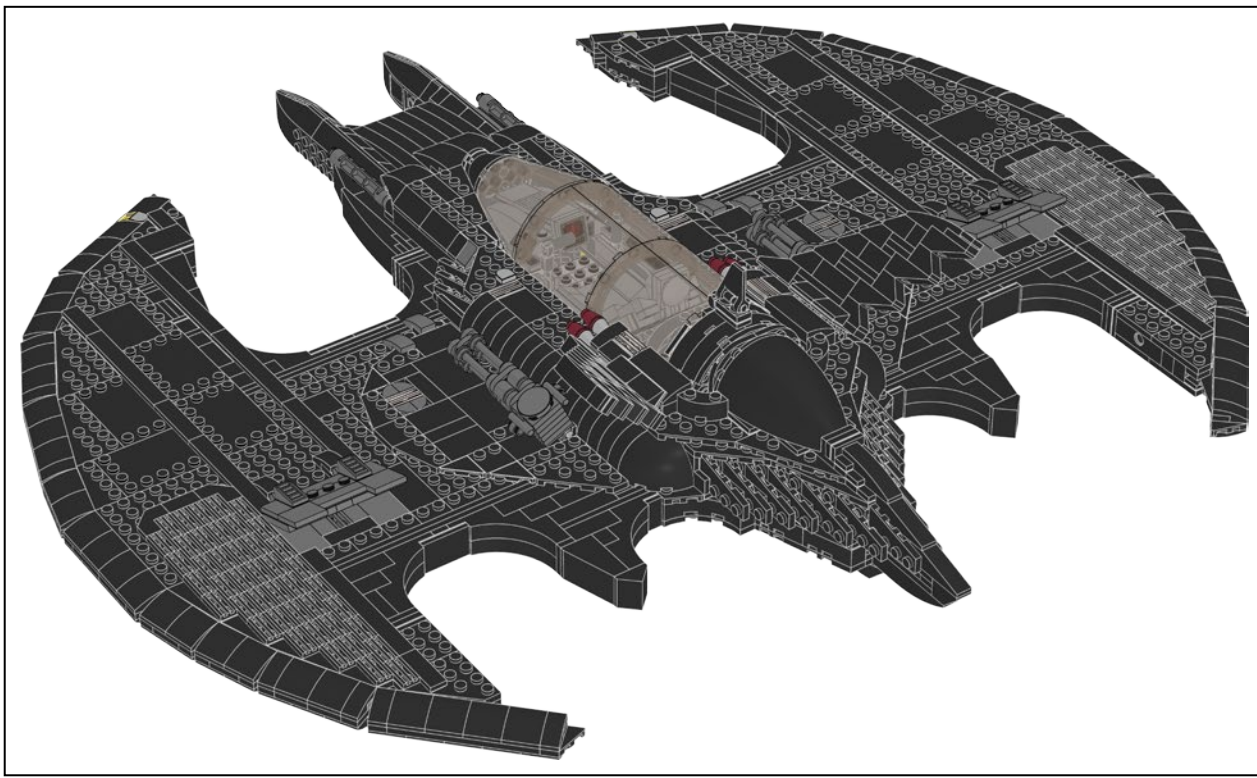

---

## **PREPARADOS PARA DESPEGAR**

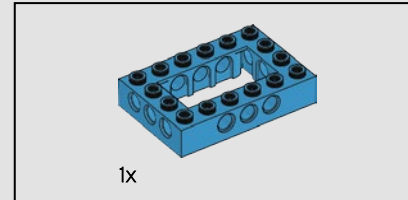

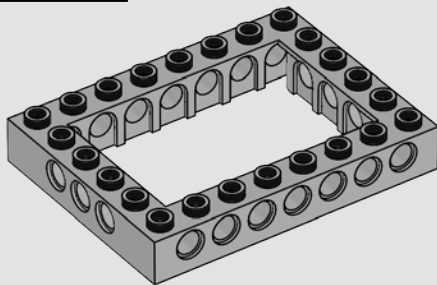

La versión cinematográfica de este Batiplano puede haberse estrellado en las escaleras de la catedral de GOTHAM CITY™, pero tú puedes construirlo, reconstruirlo y exhibirlo donde quieras. Sigue las instrucciones, prepárate para salvar GOTHAM CITY de las fechorías del artista homicida más importante de la Tierra y ayuda a esta ciudad a descansar del crimen.

## STEP BY STEP

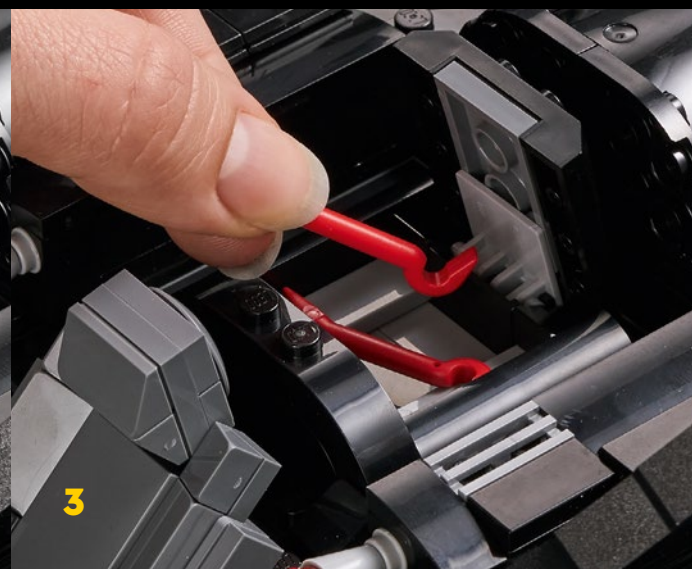

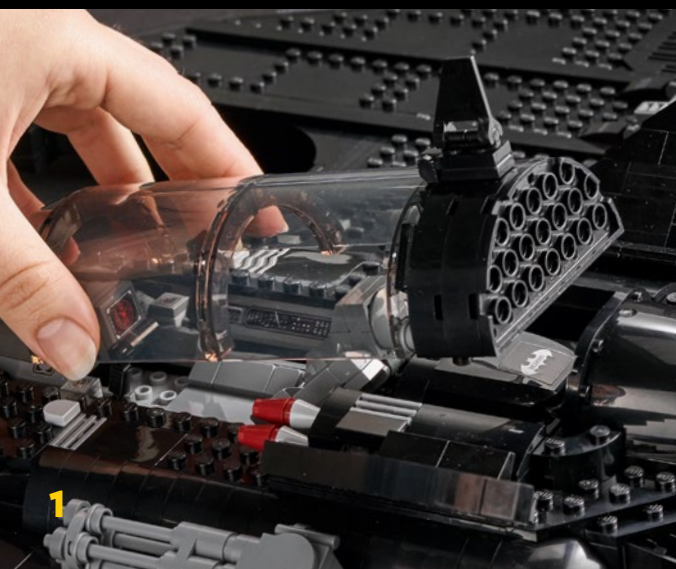

- 1 Make sure you use the right type and size of anchor and flat head screw for drywall, concrete, or brick. The screw head should fit the Batwing™ mounting bracket.
- 2 Fit your anchor and screw.
- 3 Use one of the red LEGO® crowbars to remove the seat in the cockpit. Now you can see the built-in mounting bracket.
- 4 Align the mounting bracket and screw and carefully place your Batwing.
- 5 Re-attach the cockpit seat.
- 6 Stand back and enjoy. Mission accomplished.

## ÉTAPE PAR ÉTAPE

- 1 Assurez-vous d'utiliser le bon type et la bonne taille d'ancrage et de vis à tête plate pour le plâtre, le béton ou la brique. La tête de vis doit être adaptée aux supports de montage du Batwing™.
- 2 Ajustez l'ancrage et la vis.
- 3 Utilisez l'un des pieds-de-biche LEGO® rouges pour retirer le siège du poste de pilotage. Ceci découvrira le support de montage intégré.
- 4 Alignez le support de montage et la vis et mettez délicatement votre Batwing en place.
- 5 Remettez le siège dans le poste de pilotage.
- 6 Prenez un peu de recul et admirez. Mission accomplie.

## PASO A PASO

- 1 Asegúrate de usar el tipo y el tamaño correctos de tornillo de cabeza plana y anclaje según el material donde lo vayas a colgar (pared de yeso, concreto o ladrillo). La cabeza del tornillo debe encajar en el soporte de montaje del Batiplano.
- 2 Coloca el anclaje y el tornillo.
- 3 Usa una de las palancas LEGO® rojas para retirar el asiento de la cabina. Debajo verás el soporte de montaje integrado.
- 4 Alinea el soporte de montaje y el tornillo, y coloca cuidadosamente el Batiplano.
- 5 Vuelve a acoplar el asiento de la cabina.
- 6 Aléjate un poco y disfruta. Misión cumplida.
